

## LSAA Special Visit to Alan Gibbs's Farm

The LSAA is privileged to have organized a private visit to Alan Gibbs's Farm, a 1000-acre sculpture park on New Zealand's Kaipara Harbour. Since purchasing the site in 1991, he has commissioned some epic works by Neil Dawson, Anish Kapoor, Richard Serra, Andy Goldsworthy, Leon van den Eijkel and Bernar Venet amongst others.

The large sculpture by Anish Kapoor is a tensioned fabric structure moulded into the hill top ridge (the left hand image below). It was a worthy winner of an LSAA Design Award, in 2009.

In the evening an informal gathering will happen and it is likely that delegates will arrange to further network and dine together under their own arrangements.
